

Senior Lawyer – Commercial Transactions Energy & Resources Focus

DMAW Lawyers, one of Adelaide's leading corporate and commercial law firms, seeks a senior business transactional lawyer (or Senior Associate) with an interest in energy and resources. The successful applicant would possess at least 5 years experience in contractual matters and commercial transactions.

We seek an excellent commercial lawyer with good technical skills; someone with significant experience in drafting and negotiating commercial contracts.

If you are the successful applicant, you will be expected to work autonomously, as well as being part of a team at times. You will need to have a positive and proactive approach and be motivated to meet and exceed client expectations. Strong communication skills are essential.

We seek someone looking to be a practice leader in time to come and who is keen to assist in developing the firm's energy and resources practice and to work with other commercial transactional lawyers in the firm. This position does not require experience in the energy and resources field, although any such experience would be viewed favourably. A key consideration for us will be whether a candidate has the right attitude.

If you want diverse and challenging work in a fresh, friendly and focused environment we urge you to apply. An attractive salary package is offered and excellent working conditions available.

Written applications will be treated with strict confidentiality and should be addressed to:
